Summary — Frontend Developer with 1+ years of experience creating responsive, high-performance web applications using React.js, JavaScript, and modern UI/UX practices. Skilled in API integration, performance optimization, and cross-browser compatibility with a passion for writing clean, scalable code.

Skills

Frontend: React.js (Redux), JavaScript, HTML5, CSS3, Tailwind, Bootstrap

Backend: REST APIs, Node.js (basic)

Languages: Java, Python, PHP

Tools: Git, GitHub, Chrome DevTools, Postman, Figma

Database: MySQL, MongoDB

Others: Responsive Design, Cross-Browser Testing, Performance Optimization, SEO basics

Experience

Crownmiz, New Delhi

Dec 2024 – Mar 2025

Frontend Developer

- Developed and maintained responsive web and mobile applications using React.js, React Native, and modern JavaScript (ES6+).
- Collaborated with UX/UI designers and backend developers to translate Figma wireframes into scalable, user-friendly interfaces.
- Integrated RESTful APIs to fetch and display real-time data, ensuring smooth user interactions and performance optimization.
- Built and maintained reusable components and frontend libraries, improving development speed and design consistency.
- Implemented accessibility best practices (WCAG), cross-browser compatibility, and mobile-first design.
- Optimized application performance via lazy loading, code splitting, and responsive images.
- Used Git and GitHub for version control, and followed Agile/Scrum development workflows.

CDAC, Noida

May 2024 – Oct 2024

Frontend Developer Intern

- Assisted in the development of interactive dashboards and data-driven applications using React, HTML/CSS, and JavaScript.
- Integrated APIs to fetch real-time analytics and displayed them using charts and data visualization tools.
- Participated in code reviews, contributed to reusable code improvements, and debugged frontend issues in a collaborative environment.
- Ensured consistent UI/UX across devices with responsive design and accessibility standards.

Projects

Profile Map Viewer

React.js, Leaflet, REST API, CSS Modules

- Designed a fully responsive frontend to display user locations and profile data on an interactive map using Leaflet.js and REST API integration.
- Implemented modular, maintainable code with reusable components and API error handling.
- Enhanced UI with animations and interactive elements to improve user engagement.

University Website

HTML, CSS, JavaScript, React.js

- Created a modern, accessible web interface for a university portal including events, news, and course listings.
- Translated Figma mockups into responsive pages with clean typography and consistent spacing.
- Ensured cross-browser compatibility and improved page load times by optimizing images and scripts.

Education

Banaras Hindu University, Varanasi

July 2023 – Mar 2025

MCA (Master of Computer Applications)

CGPA: 7.55/10

DAVV University, Indore

July 2020 – Apr 2023

BCA (Bachelor of Computer Applications)

CGPA: 7.50/10
